

"My life is pretty hectic as I have to juggle work, family and hobbies. However, I want to try new things, when I cook for my family. A healthy meal is a way to show that I care for them."

Valeria, 39
working mother of two kids

Easy everyday cooking with Fiskars

Functional Form™

Fiskars makes **everyday cooking** easy and convenient for the **Busy Homemaker**. Our solutions take the whole cooking process into account and thus products are designed to be **easy to use, clean and store** as well as work seamlessly together.

- Gift box with six 4-piece settings, 24 pcs in total.

Edge knives

Modern all-around knife with
non-stick properties

Fiskars Edge knives have a sleek, modern design and innovative features. The specialised coating does much more than just gives the knife an attractive black finish – it makes it easier to maintain.

Edge knives

features & benefits

Durability for easy cutting, easy cleaning and storing.

1 Strong and thick blade for better cutting

High-quality Japanese standard stainless steel and taper grinding ensure sharpness of blade.

2 Ergonomic design

- Enables all grips and left/right handed use.
- Handle enables user to hold knife close to blade.

3 Durable and easy to clean blade

Protective non-stick PTFE-coating prevents corrosion and food from sticking to the blade.

4 Durable handle

Durable and impact resistant ABS plastic handle is easy to keep clean.

Edge knives

Peeling knife, 8 cm					Art. no. 1003091	EAN	
Height: 2 cm	Length: 33,5 cm	Width: 6,5 cm	Weight: 0,05 kg	Retail box: 5	Old art. no. 978301		

- Small, lightweight, handy knife with straight blade and firm tip.
- Ideal knife for peeling fruit and vegetables.
- Also suitable for cutting out spots and blemishes.

Tomato knife, 13 cm					Art. no. 1003092	EAN	
Height: 2 cm	Length: 33,5 cm	Width: 6,5 cm	Weight: 0,06 kg	Retail box: 5	Old art. no. 978304		

- Medium-sized, handy, versatile knife with serrated blade.
- Excellent for cutting foods with a crust or skin such as bread and tomatoes.
- Suitable also for table use.

Deba knife, 12 cm					Art. no. 1003096	EAN	
Height: 2 cm	Length: 33,5 cm	Width: 6,5 cm	Weight: 0,07 kg	Retail box: 5	Old art. no. 978326		

- Asian knife for cutting medium sized foods.

Cook's knife, 15 cm					Art. no. 1003095	EAN	
Height: 2 cm	Length: 37,2 cm	Width: 7,5 cm	Weight: 0,11 kg	Retail box: 5	Old art. no. 978311		

- Sturdy knife with broad, strong blade.
- Ideal knife for cutting medium sized foods.

Cook's knife, 19 cm					Art. no. 1003094	EAN	
Height: 2,5 cm	Length: 42,5 cm	Width: 7,5 cm	Weight: 0,12 kg	Retail box: 5	Old art. no. 978308		

- Large knife with broad, strong blade.
- An all-rounder for cutting meat, chopping vegetables and mincing herbs.

reddot design award
winner 2013

Santoku knife, 17 cm					Art. no. 1003097	EAN	
Height: 2,5 cm	Length: 36,5 cm	Width: 9,2 cm	Weight: 0,13 kg	Retail box: 5	Old art. no. 978331		

- Asian knife with broad blade.
- An all-rounder for preparing meat, fish and also vegetables.

Bread knife, 23 cm					Art. no. 1003093	EAN	
Height: 2 cm	Length: 43 cm	Width: 7,5 cm	Weight: 0,14 kg	Retail box: 5	Old art. no. 978305		

- Long, strong knife with serrated blade.
- Cuts effortlessly through hard bread crusts.

Roll-Sharp™ knife sharpener					Art. no. 1003098	EAN	
Height: 23,3 cm	Length: 3,7 cm	Width: 8,8 cm	Weight: 0,09 kg	Retail box: 6	Old art. no. 978700		

- Easy to use sharpener with ceramic grindstone and non-slip base for both right- and left-handed use.
- Ensures an optimal cutting edge and lifelong performance.
- Easy to take apart for cleaning.
- Also for thick blades such as bigger kitchen knives and cleavers.

Knife block with 5 knives					Art. no. 1003099	EAN	
Height: 8 cm	Length: 38,7 cm	Width: 18,7 cm	Weight: 1,61 kg	Retail box: 4	Old art. no. 978791		

- Knife block that you can mount on the wall, keep in the drawer or have on the counter.
- The knife block includes a peeling knife, tomato knife, bread knife, cook's knife large and Santoku knife.

Essential

Convenient all-around cutting

The Essential range consists of knives, scissors and utensils.
Each item is designed to be practical and yet affordable.
The range is ideal for anyone looking for the basic kitchen essentials.

Service and care

Knives

Fiskars knife assortment offers knives with different blades and handle materials for different cutting tasks. The handles of Fiskars knives are injection-moulded directly onto the blade, providing a tight seal that prevents bacteria from lodging there. The materials and bond of our handles allow for safe cutting even when wet or greasy. Many Fiskars knives also feature a large finger stop that minimises any risk of fingers slipping onto the blade.

MAINTENANCE

The better a Fiskars knife is looked after, the longer the intervals, before it needs sharpening. However, it is perfectly normal for a knife to need sharpening every once in a while to maintain a perfect cutting edge. A knife stays sharp longer if you make sure to always cut on a suitable surface such as a chopping board made of wood or plastic. You should never use the knife directly on hard kitchen surfaces as this will blunt the edge.

Professional chefs use a sharpening tool each time when using a knife, to make sure it is sharp and ready for use. In normal domestic kitchens, it is not necessary to sharpen your knives as often. It is enough to either sharpen them at regular intervals or simply when they need it. Fiskars knives made of steel, have a hardness of between HRC 52 and HRC 58, which makes them ideal for everyday household use. Sharpening also made easy, using either a Fiskars Roll-Sharp™, a Fiskars sharpening steel or a Fiskars Whetstone.

Using a Fiskars Roll-Sharp™ for getting the job done quickly and easily. The Roll-Sharp™ should be placed on a flat surface, and the blade of the knife pushed backwards and forwards through it, 15-20 times. This makes sure the sharpening takes place at exactly the right angle. It is important that you move the knife backwards as well as forwards to make sure it gets sharpened on both sides. Using a sharpening steel or a whetstone requires some skill. The total sharpening angle of the knife is determining in which degree angle the sharpening should be done. With a sharpening steel the knife should be passed down the sharpening steel at the optimal angle each way,

and repeated on the other side. Use long, even strokes. The Fiskars® Whetstone Knife Sharpener includes all equipment that is needed for sharpening a knife. This extremely effective knife sharpener is suitable for use on all Fiskars® knives, including Titanium knives, which can only be sharpened with a sharpening stone. The package contains detailed instructions for safe, comfortable at-home knife sharpening. Irrespective of which method you prefer to use to keep your Fiskars knives sharp, you should rinse off the knife using hot water and dry it once you are finished.

CLEANING

Most Fiskars knives can be washed in the the dishwasher. Norden, Titanium, Norr & All Steel knives should be washed by hand. When washing your knives by hand, rinse and dry them off straight after washing. Fiskars knives must not be left to soak. It is also important not to allow food remains to dry on the surface of the knife, because acids present in the food residue will damage the knife in the long run. If you do put Fiskars knives in the dishwasher, it is a good idea to make sure they do not come into contact with other utensils, dishes or cutlery, because this will cause damage to the cutting edge.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If you prefer to wash your Fiskars knives in the dishwasher, open the door to let the steam escape. It is also a good idea to dry off the knives with a dry cloth once the dishwasher cycle is complete. If rust spots do appear on your knives you can remove them by using a regular steel cleaning product.

STORING

Most knives quickly become blunt, if they are just placed in a drawer, because the cutting edge gets damaged by movement and contact with other items. To keep Fiskars knives sharp, they should either be placed in a knife block or on a magnetic wall rack.

Scissors

The handles of all Fiskars scissors are injection-moulded directly onto the blades. This makes them as hygienic as possible, because there are no cracks and gaps in which bacteria can accumulate. Our handles are made of impact-resistant plastic.

The nickel-free blades are precision-ground, and made of hardened Swedish Sandvik steel with a hardness of HRC 55 or HRC 57. The tension between the blades can be easily adjusted.

MAINTENANCE

Most of the handles on Fiskars Classic scissors are made of polybutylene terephthalate (PBT), a plastic that can be sterilised effectively using either gamma rays or an autoclave. If you use an autoclave, the temperature should not exceed 137°C. It is a good idea to keep the blades sharp by regular use of a Fiskars Clip-Sharp™. Fiskars scissors are generally dishwasher safe.

STORING

Some Fiskars scissors are sold in a storage cover that makes sure no one catches their fingers or hands on the points if the scissors are lying around or are in a drawer. The cover also helps protect the scissors against damage, and keeps them sharp longer.

Cutlery

All Fiskars cutlery is made of stainless steel. Despite the name, no steel of any type can be absolutely resistant to external influences. Stainless steel is a name for steel that is rust-resistant, and where any small particles of rust can easily be removed using steel cleaner.

CLEANING

New cutlery should always be washed before first time use. To keep Fiskars cutlery looking good for as long as possible, it is advisable to polish it with a regular steel cleaning product at least once a year.

Handwashing is recommended for Fiskars cutlery to keep the items in good condition. Cutlery should be dried carefully after washing. If cutlery is placed in the dishwasher, it should be rinsed beforehand. Once the dishwasher cycle is complete, the door should be opened to let the steam escape. To get the very best result, cutlery should be dried with a cloth once the dishwasher cycle is complete.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If rust spots do appear on your cutlery, you can remove them by using a regular steel cleaning product.

Service and care

Cookware

Fiskars uses durable materials of high-quality and also invests in R&D in order to make the best possible cookware, every day.

ALUMINIUM, STAINLESS STEEL AND CAST IRON FOR THE BEST POTS AND PANS

As a core material for coated pans aluminium beats all others thanks to its phenomenal heat conductivity. Also the sides of the pan heat the food. Aluminium pans are easy to handle because aluminium is a light metal. It is also a soft material, which is why we coat the entire pan so it can withstand wear much better. Stainless steel is extremely durable, easy to care for and to clean. Stainless steel withstands very high temperatures and corrosive substances, such as acids. Only highly concentrated solutions of cooking salt and extremely strong acids can damage a stainless steel surface. Products with plastic fittings are oven safe up to 150 °C and products with stainless steel fittings up to 250 °C. Cast iron cookware conducts heat extremely well. The enamel protects the cookware from rusting. Even though the dish is incredibly durable, the enamel glaze can flake or peel if it is hit against hard objects.

COATINGS

The quality of the coating is essential and therefore Fiskars is constantly working to make coatings stronger and to further improving their non-stick properties. The Fiskars PTFE-coatings have excellent non-stick properties. The advantages of this coating include its hard-wearing nature and effective corrosion protection. For a longer life span, please use plastic and wooden utensils. Fiskars coatings do not contain per- and polyfluoroalkyl substances (PFOA or PFOS).

USE AND MAINTENANCE

Put some oil or a couple of tablespoons of water in the pan before starting to cook. Do not heat up an empty pan. Once the oil has browned or the water has evaporated, the pan is hot enough for frying. Fry on moderate heat. Do not add salt before the water is boiling, and do not store food in coated pans. Hot cookware should not be put in cold water as the temperature shock may cause the base to become uneven.

CLEANING

Wash the cookware before using it for the first time and clean the cookware immediately after use. All products are dishwasher safe. Washing coated aluminium and stainless steel cookware by hand will prolong their life span. The new Norden cast iron & stainless steel cookware and frying pans should be hand washed only. Thoroughly dry the cast iron cookware after washing. This will prevent rust forming on the edges, as the edges are not protected by the enamel.
